As directed by D.02-04-060, the Energy Division will convene a workshop to discuss with the California Manufacturer and Technology Association (CMTA), Pacific Gas and Electric Company (PG&E), and other interested parties the implementation details of a pilot OBMC program in PG&E's service territory. D.02-04-060 found that use of a 10-day OBMC baseline normalized to reflect conditions on the day of the OBMC event (e.g., adjusted for temperature or production variations) may be a useful option for some customers participating in the OBMC program, provided that it can be kept administratively simple after first being evaluated in a pilot program.
